

SKF PHG T10-500-25

Metric timing belt, T section

Belts provide a very efficient and cost-effective method for transmitting power from prime movers to driven machines. Metric timing belts have teeth that interlock with the corresponding grooves on the pulleys to ensure a constant speed ratio. The combination of high tensile steel cords and a wear-resistant polyurethane rubber cushion provides dimensionally stable and extremely durable high-performance belts.

Technical specifications

Dimensions	
Pitch length	500 mm
Tooth angle	40 °
Tooth depth	2.5 mm
Tooth height	4.5 mm
Tooth pitch	10 mm
Width	25 mm

Properties	
Number of teeth	50
Section	T10
Sleeve	No

Logistics	
Product net weight	0.0595 kg
eClass code	23-17-02-90
UNSPSC code	26111504
