

SKF PHE FRC70FR

FRC coupling, fire-resistant and anti-static (FRAS)

With a higher load capacity than jaw couplings and virtually maintenance-free operation, FRC couplings are designed as a general-purpose coupling. The FR type is fire-resistant and anti-static (FRAS). FRC couplings are able to cushion moderate shock loads, dampen low levels of vibration and accommodate incidental misalignment.

Technical specifications

Properties	
Category	FRC couplings
Material	FR
Size	70

Logistics	
Product net weight	0.02 kg
eClass code	23-03-10-90
UNSPSC code	31171537
