

SKF MB 22

Lock washer for metric lock nuts

MB and MBL lock washers are locking devices, used to secure KM, KML and HM .. T lock nuts onto a shaft or adapter sleeve and prevent unintentional loosening. MB .. A is a stronger version of the MB washer. The lock washers engage a keyway in the shaft or adapter sleeve thread. They lock the nut in position when one of the washer tabs is bent into one of the slots in the outside diameter of the lock nut. A new lock washer should be used each time the corresponding lock nut is installed.

Technical specifications

Dimensions	
Bore diameter	110 mm
Side face diameter	133 mm
Outside diameter	154 mm
Thickness material	1.75 mm
Width inner tab	12 mm
Inside dimension under inner tab	105.5 mm
Properties	
Locking device	Lock washer
Logistics	
Product net weight	0.09 kg
eClass code	23-11-07-05
UNSPSC code	31163218
