

## SKF PHG T10-800-10

### Metric timing belt, T section

Belts provide a very efficient and cost-effective method for transmitting power from prime movers to driven machines. Metric timing belts have teeth that interlock with the corresponding grooves on the pulleys to ensure a constant speed ratio. The combination of high tensile steel cords and a wear-resistant polyurethane rubber cushion provides dimensionally stable and extremely durable high-performance belts.

### Technical specifications

| Dimensions   |        |
|--------------|--------|
| Pitch length | 800 mm |
| Tooth angle  | 40 °   |
| Tooth depth  | 2.5 mm |
| Tooth height | 4.5 mm |
| Tooth pitch  | 10 mm  |
| Width        | 10 mm  |

  

| Properties      |     |
|-----------------|-----|
| Number of teeth | 80  |
| Section         | T10 |
| Sleeve          | No  |

  

| Logistics          |             |
|--------------------|-------------|
| Product net weight | 0.0381 kg   |
| eClass code        | 23-17-02-90 |
| UNSPSC code        | 26111504    |
