

SKF PHE FRC130RSB

FRC coupling with solid bore

With a higher load capacity than jaw couplings and virtually maintenance-free operation, FRC couplings are designed as a general-purpose coupling. The RSB type has a solid bore, which makes it possible for it to be drilled to the desired bore dimension. FRC couplings are able to cushion moderate shock loads, dampen low levels of vibration and accommodate incidental misalignment.

Technical specifications

Dimensions	
Coupling hub width	18 mm
Diameter	130 mm
Hub diameter	105 mm

Properties	
Category	FRC couplings
Material	Cast iron
Size	130

Logistics	
Product net weight	3.92 kg
eClass code	23-03-10-90
UNSPSC code	31171537
