

## SKF TXL 520

### Lip seal with internal gap-type seal

These seals provide effective sealing against many contaminants and allow for some grease to be purged when relubricating the bearing. Benchmark testing has proven low friction and outstanding service life. In highly contaminated environments, they provide the first barrier in a three-barrier solution. When ordering, please note that one item (seal pack) contains two seals (pre-cut).

## Technical specifications

| General                 |              |
|-------------------------|--------------|
| Material                | ECOPUR       |
| Dimensions              |              |
| Shaft diameter          | 90 mm        |
| Diameter of seal groove | 147.5 mm     |
| Width                   | 14 mm        |
| Housing groove diameter | 147.5 mm     |
| Temperature and speed   |              |
| Operating temperature   | -30 °C       |
| Operating temperature   | 110 °C       |
| Circumferential speed   | 11 m/s       |
| Properties              |              |
| Accessory type          | Housing seal |
| Sealing type            | Lip          |
| Material                | ECOPUR       |
| Logistics               |              |
| Product net weight      | 0.1 kg       |
| eClass code             | 23-05-17-90  |
| UNSPSC code             | 31171519     |
