

SKF LAOS 66251

Drum for Oil handling container

This Oil Handling Drum is the ideal size for large sump fill applications while still maintaining mobility and ease of use without all the heavy lifting and potential back injuries from lifting larger impractical drums.

Technical specifications

Dimensions	
Container dimensions (D x H)	252 x 348 mm
Properties	
Colour	White, semi transparent
Container Volume	10 l
Material	High Density Polyethylene (HDPE)
Operating temperature range	Array °C
Outlet size	120 mm
Logistics	
Product net weight	0.86 kg
eClass code	23-06-91-06
UNSPSC code	15121902
