

SKF LAOS 09897

Utility lid for Oil handling container

Multi purpose lid with large outlet hole ensures controlled fast pouring of lubricants. The LAOS Utility Lid is designed to match the Standard or High Viscosity Pump on a 3, 5 or 10 liter (0.8, 1.3 or 2.6 US Gal) drum to take care of hard to reach and time consuming pumping applications such as gearboxes and transmissions.

Technical specifications

Dimensions	
Dimensions (W x L x H)	147 x 147 x 121 mm
Properties	
Colour	Green
Material	High Density Polyethylene (HDPE)
Operating temperature range	Array °C
Outlet size	48 mm
Logistics	
Product net weight	0.3 kg
eClass code	23-06-91-06
UNSPSC code	15121902
