

SKF PHC 80H-10/L

Extra-strong simplex offset chain link (HD), ANSI

Chains are critical components in power transmission systems. Robust, quality chain drives extend mean time between failures, which reduces maintenance costs. Extra-strong simplex offset chain links are used when an odd number of pitches are required in a chain. These offset links are well suited for applications where shock loads are higher, operating speeds are lower, or there are other severe operating conditions.

Technical specifications

Dimensions	
Pitch	25.4 mm
Roller diameter max	15.88 mm
Width between inner plates min	15.75 mm
Pin diameter max	7.92 mm
Plate height max	24 mm
Plate thickness max	4 mm

Properties	
Chain number	80H-1
Standard	ANSI
Link type	Offset link
Category	Transmission chains
Type	Transmission chain link
Material	Carbon steel
Weight per meter	3.1 kg

Logistics	
Product net weight	0.085 kg
eClass code	23-17-04-90
UNSPSC code	26111505
