

SKF PHG SPA1857XP2

Xtra Power wrapped wedge or wrapped narrow wedge belt

Belts provide a very efficient and cost-effective method for transmitting power from prime movers to driven machines. Wedge belts have pre-tensioned polyester cords that provide low stretch during operation. Using special materials for wrapping and a special fibre-loaded cushion rubber, Xtra Power belts can deliver more power than standard wrapped belts. This leads to an increased service life, less downtime, less maintenance and reduced cost.

Technical specifications

| Dimensions | |
|------------|---------|
| Height | 10 mm |
| Width, top | 12.7 mm |

| Properties | |
|---------------|----------------------|
| Cogged | No |
| Material | CR (polychloroprene) |
| Section | SPA |
| Tensile cord | Polyester |
| Wrapped Cover | Yes |

| Logistics | |
|--------------------|-------------|
| Product net weight | 0.227 kg |
| eClass code | 23-17-02-90 |
| UNSPSC code | 26111504 |
