Banded narrow wedge belt

Belts provide a very efficient and cost-effective method for transmitting power from prime movers to driven machines. Banded narrow wedge belts are made up of two or more belts that are joined together on the top with a reinforced rubber band. This design provides an excellent transverse rigidity that prevents belt turnover, reduces vibration and eliminates excessive belt slip in case of heavy starts of the drive.

Technical specifications

Dimensions	
Height	8 mm
Pitch length	1422 mm
Properties	
Cogged	No
Material	CR (polychloroprene)
Section	3V
Tensile cord	Polyester
Wrapped Cover	Yes
Logistics	
Product net weight	0.52 kg
eClass code	23-17-02-90
UNSPSC code	26111504
