

SKF TXL 510

Lip seal with internal gap-type seal

These seals provide effective sealing against many contaminants and allow for some grease to be purged when relubricating the bearing. Benchmark testing has proven low friction and outstanding service life. In highly contaminated environments, they provide the first barrier in a three-barrier solution. When ordering, please note that one item (seal pack) contains two seals (pre-cut).

Technical specifications

General	
Material	ECOPUR
Dimensions	
Shaft diameter	45 mm
Diameter of seal groove	70.5 mm
Width	11 mm
Housing groove diameter	70.5 mm
Temperature and speed	
Operating temperature	-30 °C
Operating temperature	110 °C
Circumferential speed	11 m/s
Properties	
Accessory type	Housing seal
Sealing type	Lip
Material	ECOPUR
Logistics	
Product net weight	0.03 kg
eClass code	23-05-17-90
UNSPSC code	31171519
