

SKF TMMX 210

Puller protection blanket

The SKF puller protection blanket TMMX 210 is especially designed to offer additional safety during dismounting bearings or other components. The TMMX series blankets are simply wrapped around the puller and application after the puller has been placed on the application. The blankets are especially designed to fit TMMX series pullers and depending on the puller size, they can be used for a range of other two and three arm pullers.

Technical specifications

Logistics	
Product net weight	0.323 kg
eClass code	23-05-19-01
UNSPSC code	27111712

Properties	
Recommended applications	For wrapping around mounted two, three and strong back pullers to enhance the safety of the dismounting jobs in industrial, construction and agricultural applications
Compatible with	All external pullers (jaw and strong back) all other tools with appropriate dimensions
Number of straps	3
Operating temperature range	Array °C
Material	Plastics: PVC and POM
Colour	Transparent and black

Dimensions	
Maximum outer diameter	210 mm
Length (L)	750 mm
Width (B)	420 mm
Length of straps	500 mm
