Banded classical V-belt

Belts provide a very efficient and cost-effective method for transmitting power from prime movers to driven machines. Banded classical belts are made up of two or more V-belts that are joined together on the top with a reinforced rubber band. This design provides an excellent transverse rigidity that prevents belt turnover, reduces vibration and eliminates excessive belt slip in case of heavy starts of the drive.

Technical specifications

Dimensions	
Height	13 mm
Inner length	2235 mm
Pitch length	2280 mm

Properties	
Cogged	No
Material	CR (polychloroprene)
Section	B
Tensile cord	Polyester
Wrapped Cover	Yes

Logistics	
Product net weight	1.63 kg
eClass code	23-17-02-90
UNSPSC code	26111504
