

SKF PHE F40FRTYRE

Flex coupling tyre, chloroprene (FRAS)

Flex (tyre) couplings are designed to accommodate misalignment and shock loads and dampen vibration levels. These easy to install, vitually maintenance-free couplings consist of 2 flanges and 1 tyre. The flanges are phosphate coated for improved corrosion resistance, and the flex tyres are available in chloroprene for fire-resistance and anti-static (FRAS) properties.

Technical specifications

Dimensions	
Diameter	104 mm
Properties	
Category	Flex couplings
Component	FR-Element
Size	F40
Logistics	
Product net weight	0.163 kg
eClass code	23-03-10-90
UNSPSC code	31171537
