

# SKF PHG C360

## Wrapped classical V-belt

Belts provide a very efficient and cost-effective method for transmitting power from prime movers to driven machines. Classical V-belts have pre-tensioned polyester cords that provide low stretch during operation and a fibre-loaded rubber cushion that gives good transverse rigidity. Being fully wrapped in a heavy duty industrial fabric, the belts have a high resistance against abrasion.

## Technical specifications

<b>Dimensions</b>	
Height	14 mm
Inner length	9144 mm
Pitch length	9200 mm
Width, top	22 mm

  

<b>Properties</b>	
Cogged	No
Material	CR (polychloroprene)
Section	C
Tensile cord	Polyester
Wrapped Cover	Yes

  

<b>Logistics</b>	
Product net weight	2.73 kg
eClass code	23-17-02-90
UNSPSC code	26111504
