

SKF TSN 509 C

Felt seal

Felt seals provide a simple and effective sealing solution. They accommodate relatively high shaft speeds, because a small gap forms between the felt and shaft, transforming the seal into a non-contact, gap-type seal. Felt seals do not limit axial movements of the shaft. When ordering, please note that one item (seal pack) contains two seals (four halves).

Technical specifications

General	
Material	Felt with aluminium and nitrile rubber elements
Dimensions	
Shaft diameter	40 mm
Diameter of seal groove	64.5 mm
Width	8 mm
Outside diameter	62 mm
Housing groove diameter	64.5 mm
Properties	
Accessory type	Housing seal
Sealing type	Felt
Material	Felt with aluminium and nitrile rubber elements
Logistics	
Product net weight	0.05 kg
eClass code	23-05-17-90
UNSPSC code	31171519
