

SKF PHG AT10-1210-25

Metric timing belt, AT section

Belts provide a very efficient and cost-effective method for transmitting power from prime movers to driven machines. Metric timing belts have teeth that interlock with the corresponding grooves on the pulleys to ensure a constant speed ratio. The combination of high tensile steel cords and a wear-resistant polyurethane rubber cushion provides dimensionally stable and extremely durable high-performance belts.

Technical specifications

Dimensions	
Pitch length	1214 mm
Tooth angle	50 °
Tooth depth	2.5 mm
Tooth height	5 mm
Tooth pitch	10 mm
Width	25 mm

Properties	
Number of teeth	125
Section	AT10
Sleeve	No

Logistics	
Product net weight	0.16 kg
eClass code	23-17-02-90
UNSPSC code	26111504
