## Wrapped classical V-belt

Belts provide a very efficient and cost-effective method for transmitting power from prime movers to driven machines. Classical V-belts have pre-tensioned polyester cords that provide low stretch during operation and a fibre-loaded rubber cushion that gives good transverse rigidity. Being fully wrapped in a heavy duty industrial fabric, the belts have a high resistance against abrasion.

### Technical specifications

| Dimensions   |        |
|--------------|--------|
| Height       | 8 mm   |
| Inner length | 838 mm |
| Pitch length | 870 mm |
| Width, top   | 13 mm  |

  

| Properties    |                      |
|---------------|----------------------|
| Cogged        | No                   |
| Material      | CR (polychloroprene) |
| Section       | A                    |
| Tensile cord  | Polyester            |
| Wrapped Cover | Yes                  |

  

| Logistics          |             |
|--------------------|-------------|
| Product net weight | 0.08 kg     |
| eClass code        | 23-17-02-90 |
| UNSPSC code        | 26111504    |
