Adapter sleeve for oil injection mounting with HM .. T lock nut and MB lock washer

Adapter sleeves are the most commonly used components for locating bearings with a tapered bore onto a cylindrical seat as they can be used on plain shafts or stepped shafts. These sleeves enable use of the oil injection method to mount and dismount bearings, and they are slit and are supplied complete with a lock nut and locking device. They are easy to install and require no additional location on the shaft.

Technical specifications

Dimensions	
Bore diameter	200 mm
Outside diameter small taper	220 mm
Outside diameter lock nut	280 mm
Width	161 mm
Width lock nut	32 mm
Width lock nut including lock washer	35 mm
Thread	Tr220x4
Thread oil supply duct	M6
Length thread for oil supply duct	10 mm
Distance bore - oil supply duct	3.9 mm
External taper	1:12
Thread designation	Tr220x4
Included products	
Lock nut	HM 44 T
Locking device	MB 44
Associated products	
Hydraulic nut	HMV 44E
Properties	
Taper	1:12
Holes for oil injection	With
Logistics	
Product net weight	14 kg
eClass code	23-11-07-05
UNSPSC code	31163218
