

SKF PHG T5-355-10

Metric timing belt, T section

Belts provide a very efficient and cost-effective method for transmitting power from prime movers to driven machines. Metric timing belts have teeth that interlock with the corresponding grooves on the pulleys to ensure a constant speed ratio. The combination of high tensile steel cords and a wear-resistant polyurethane rubber cushion provides dimensionally stable and extremely durable high-performance belts.

Technical specifications

Dimensions	
Pitch length	355 mm
Tooth angle	40 °
Tooth depth	1.2 mm
Tooth height	2.2 mm
Tooth pitch	5 mm
Width	10 mm

Properties	
Number of teeth	71
Section	T5
Sleeve	No

Logistics	
Product net weight	0.0081 kg
eClass code	23-17-02-90
UNSPSC code	26111504
