

SKF PHC 12B-1SS-C/L

Simplex connecting link, stainless steel, European standards (EN)

Chains are critical components in power transmission systems. Robust, quality chain drives extend mean time between failures, which reduces maintenance costs. Simplex stainless steel connecting chain links are used to connect the two ends of a chain together. Both the spring clip and cotter pin type connecting links can be disassembled and replaced easily. The riveted type provides a very strong link, and has a similar fatigue strength as the other links in the chain.

Technical specifications

Dimensions	
Pitch	19.05 mm
Roller diameter max	12.07 mm
Width between inner plates min	11.68 mm
Pin diameter max	5.72 mm
Plate height max	16 mm
Plate thickness max	1.85 mm

Properties	
Chain number	12B-1SS
Performance type	Corrosion resistant SS
Standard	BS
Link type	Connecting link
Category	Transmission chains
Type	Transmission chain link
Material	Stainless steel
Weight per meter	1.16 kg

Logistics	
Product net weight	0.0214 kg
eClass code	23-17-04-90
UNSPSC code	26111505
