

SKF TSN 522 C

Felt seal

Felt seals provide a simple and effective sealing solution. They accommodate relatively high shaft speeds, because a small gap forms between the felt and shaft, transforming the seal into a non-contact, gap-type seal. Felt seals do not limit axial movements of the shaft. When ordering, please note that one item (seal pack) contains two seals (four halves).

Technical specifications

General	
Material	Felt with aluminium and nitrile rubber elements
Dimensions	
Shaft diameter	100 mm
Diameter of seal groove	157.5 mm
Width	14 mm
Outside diameter	153.5 mm
Housing groove diameter	157.5 mm
Properties	
Accessory type	Housing seal
Sealing type	Felt
Material	Felt with aluminium and nitrile rubber elements
Logistics	
Product net weight	0.53 kg
eClass code	23-05-17-90
UNSPSC code	31171519
