

SKF 226400 E

Manual oil injector

The 226400 E is suitable for many applications, for pressures up to 300 MPa/43,500 psi, using the SKF Oil Injection Method. The injector is supplied with an oil reservoir in a compact carrying case. The injector can be mounted directly onto the work piece or connected to a SKF Adapter Block 226402 to make a floor standing model, making it easy to connect pressure gauges and high-pressure pipes. Typical mounting and dismounting applications, Bearings, Couplings, Railway wheels, Gear wheels, Flywheels, SKF OK Couplings
