

## SKF GS 81113

GS housing washer for cylindrical and needle roller thrust bearings

Housing washers for cylindrical and needle roller thrust bearings are supplied as separate components. They are made of hardened carbon chromium bearing steel and have a precision-ground raceway surface and a ground outside surface. The washers can be combined with roller and cage thrust assemblies and shaft washers to create complete bearings. SKF recommends using GS washers for high-speed applications where accurate centring of the washers is required.

### Technical specifications

Dimensions	
Outside diameter / housing bore	90 mm
Thickness housing washer GS series	5.25 mm
Bore diameter housing washer	67 mm
Chamfer dimension housing washer GS series	1 mm
Bore diameter	67 mm
Shaft diameter	65 mm
Outside diameter	90 mm
Height	5.25 mm

  

Properties	
Bearing part	Housing washer
Material	Bearing steel
Coating	Without

  

Logistics	
Product net weight	0.11 kg
UNSPSC code	31171505
