## Wrapped narrow wedge belt

Belts provide a very efficient and cost-effective method for transmitting power from prime movers to driven machines. Narrow wedge belts have pre-tensioned polyester cords that provide low stretch during operation and a fibre-loaded rubber cushion that provides good transverse rigidity. Being fully covered in a heavy duty industrial fabric, wrapped belts have a high resistance against abrasion.

## Technical specifications

| Dimensions         |                      |
|--------------------|----------------------|
| Height             | 13 mm                |
| Pitch length       | 3175 mm              |
| Width, top         | 15 mm                |
| Properties         |                      |
| Cogged             | No                   |
| Material           | CR (polychloroprene) |
| Section            | 5V                   |
| Tensile cord       | Polyester            |
| Wrapped Cover      | Yes                  |
| Logistics          |                      |
| Product net weight | 0.62 kg              |
| eClass code        | 23-17-02-90          |
| UNSPSC code        | 26111504             |
