Xtra Power lawn and garden V-belt

Belts provide a very efficient and cost-effective method for transmitting power from prime movers to driven machines. Xtra Power lawn and garden V-belts have aramid cords that give inherent length stability and high tensile strength. The special dry cotton wrapping provides for a consistent power transmission and reduced slippage while clutching, high resistance to repeated reverse flexing and high resistance to oil, heat and cracking.

Technical specifications

Dimensions	
Height	8 mm
Outside length	2057 mm
Width, top	13 mm
Properties	
Section	4L
Tensile cord	Aramid
Wrapped Cover	Dry wrap
Logistics	
Product net weight	0.237 kg
eClass code	23-17-02-90
UNSPSC code	26111504
