

## SKF PHC 05B-10/L

Simplex offset chain link, European standards (EN)

Chains are critical components in power transmission systems. Robust, quality chain drives extend mean time between failures, which reduces maintenance costs. Duplex offset chain links are used when an odd number of pitches are required in a chain.

### Technical specifications

| Dimensions                     |         |
|--------------------------------|---------|
| Pitch                          | 8 mm    |
| Roller diameter max            | 5 mm    |
| Width between inner plates min | 3 mm    |
| Pin diameter max               | 2.31 mm |
| Plate height max               | 7.1 mm  |
| Plate thickness max            | 0.8 mm  |

| Properties       |                         |
|------------------|-------------------------|
| Chain number     | 05B-1                   |
| Standard         | BS                      |
| Link type        | Offset link             |
| Category         | Transmission chains     |
| Type             | Transmission chain link |
| Material         | Carbon steel            |
| Weight per meter | 0.2 kg                  |

| Logistics          |             |
|--------------------|-------------|
| Product net weight | 0.0021 kg   |
| eClass code        | 23-17-04-90 |
| UNSPSC code        | 26111505    |
