

SKF MB 28

Lock washer for metric lock nuts

MB and MBL lock washers are locking devices, used to secure KM, KML and HM .. T lock nuts onto a shaft or adapter sleeve and prevent unintentional loosening. MB .. A is a stronger version of the MB washer. The lock washers engage a keyway in the shaft or adapter sleeve thread. They lock the nut in position when one of the washer tabs is bent into one of the slots in the outside diameter of the lock nut. A new lock washer should be used each time the corresponding lock nut is installed.

Technical specifications

Dimensions	
Bore diameter	140 mm
Side face diameter	160 mm
Outside diameter	192 mm
Thickness material	2 mm
Width inner tab	16 mm
Inside dimension under inner tab	135 mm

Properties	
Locking device	Lock washer

Logistics	
Product net weight	0.13 kg
eClass code	23-11-07-05
UNSPSC code	31163218
